

**HYGIENIZE**  
Automated Disinfection Solutions

## SPRAY ROBOT

Our Spray Robot is exceptional, it has been designed to protect your staff from spraying chemicals. With up to a 4 hour drive time a 16 liter tank and various spray nozzles it offers substantial coverage of up to 25,000 sqm.

The Spray Robots high level of consistent disinfection combined with various disinfectants gives you the ability to reduce the risks of cross-infection on surfaces, whilst lowering your staff labour costs associated with disinfection.

### FEATURES

- Programmable Autonomous Robot
- Visual SLAM + laser, SLAM
- Intelligent obstacle avoidance
- Programmable working time
- Intelligent terminal (return to charge)
- Independent path planning
- Real-time data monitoring
- Performance audit
- Optional elevator control System

### SPECIFICATIONS

- Autonomous mobile indoor navigation
- Moving speed: 0 ~ 0.6 m/s
- Spray practice size: 2 ~ 5  $\mu$ m
- Liquid volume: 16L
- Battery type: 10A
- Operating time: 3.5 - 4 hours
- Charging time: 8 hours
- Dimensions: 69.5 x 41.5 x 129 cm
